Note from Virginia Kase:

Our case is being heard with two other partisan redistricting cases: another from North Carolina and a separate case from my home state of Maryland. It is important that the Court is hearing these cases together, because both Democrats and Republicans in these state legislatures are guilty of drawing election maps that benefit their party.

It is critical that the League turn out support for fair redistricting in these cases.

This is our moment and time to say, 'end gerrymandering NOW!'

WHAT: Rally to End Gerrymandering

WHERE: The U.S. Supreme Court

WHEN: 10:00 am, Tuesday, March 26

The next round of redistricting starts in 2021, after next year's census. A decision in these cases will impact how maps are drawn around the country.

It's time to make history. I hope to see you on the steps of the Supreme Court on March 26th!
